RELEVANT EXPERIENCE

Air Force Research Laboratory (AFRL)

Rome, NY

AI Research Intern

June 2026 – August 2026

- Produced an ontology of 1,103 institutions for an institutional-trust study, using a Python LLM and embeddings pipeline
- Built a CLI-based agentic memory system using MCP that gives coding agents architecture maps instead of raw source files
- Enabled analysts to score and chart text data without writing code, through a drag-and-drop AI workflow studio with 78 reusable operators

Stutter Forward, Binghamton University

Binghamton, NY

Technical Product Intern

September 2026 – Present

- Leading the development of an online stuttering support platform for a clinical program with a 72-person waitlist
- Designing an automated sign-up flow to replace a 5-step manual enrollment process that takes 2 days per cohort
- Turning program needs into a phased roadmap with 2 clinicians, targeting a working prototype within 3 months

Independent Consulting

Binghamton, NY

Technical Consultant & Developer, Schedulr

July 2026 – Present

- Cut weekly scheduling 88%, from 2 hours to 15 minutes, for a 40-person restaurant by replacing WhatsApp and spreadsheets
- Shipped shift swaps, surveys, and PDF exports across 6 live releases, prioritized from interviews with 5 staff members
- Implemented a greedy constraint-based scheduler that ranks staff by weighted scores and proposes 5 schedule options
- Built a documentation harness where coding agents follow repo rules to add release notes and update docs with each change

Asian American Dream

New York, NY

Product Engineer

April 2026 – Present

- Processed 400+ RSVPs across 3 events by launching Luma-style event pages with QR check-in and automatic reminders
- Added SMS alerts to the mentorship portal with AWS SNS for events, RSVPs, and reminders, alongside its SES email system
- Redesigned the portal dashboard, profiles, and mobile layout for v2, prioritized from interviews with 10 mentor and mentee stakeholders

Health Guard Pharmacy

Queens, NY

Software Engineer Intern

July 2025 – August 2025

- Replaced Excel sheets at a 30-employee pharmacy with a clock-in web app, cutting payroll prep from 3 hours to 10 minutes
- Gathered requirements from lead pharmacists to shape the app around real shifts, time-off requests, and schedule changes
- Designed GPS-verified clock-ins within a 100-meter radius and scheduled shift times so managers could trust each timesheet

TECHNICAL SKILLS

Languages & Frameworks: Python, C, C++, TypeScript, JavaScript, Java, SQL, React, Next.js, Node.js, FastAPI, REST APIs

Cloud & Infrastructure: GCP, Firebase, Supabase, Postgres, AWS (SES, SNS), Git, Docker, Vercel, Cloudflare Workers

AI & Business Tools: Claude Code, ChromaDB, Codex, MCP, Google Analytics (GA4), Opencode, Excel, PowerPoint, Jira

PROJECTS & LEADERSHIP

Cisco AI Case Competition

Binghamton, NY

Consultant & 1st Place Winner

February 2026 – March 2026

- Co-built 2 of 3 prototypes, including a meeting briefing assistant, so executives could see each idea working live
- Pitched a phased rollout and risk mitigation plan to 4 Cisco executives through live skits showing each product in a real workday

StackHacks

Binghamton, NY

VP of Internal Affairs

March 2025 – Present

- Restructured internal communications by implementing a Discord environment for board and general members
- Automated weekly data-driven feedback loops across student project teams and board members to cut down 50% of meetings
- Increased student engagement by 25% by leading marketing for hackathons and promotional campaigns on social media platforms

Other: CodePath (Peer mentor to 7 students), HackHarvard 2025, Hong Kong Exchange Square (IT Chair & Historian)

EDUCATION AND HONORS

Binghamton University, State University of New York

Binghamton, NY

Bachelor of Science in Computer Science

05/2028

Cumulative GPA: 3.71/4.00 | Dean's List: Fall 2024 – Spring 2026
