EDUCATION

Binghamton University, State University of New York

Expected May 2027

Bachelor of Science in Computer Science

Binghamton, NY

- **Cumulative GPA:** 3.68/4.00 | **Dean's List:** Fall 2024 – Fall 2025
- **Relevant Coursework:** Design & Analysis of Algorithm, Programming with Objects and Data Structures

PROFESSIONAL EXPERIENCE

Health Guard Pharmacy

Aug. 2025 – Present

Software Engineer Intern

Queens, NY

- Architecting solutions for a 30-employee pharmacy, transitioning operations from manual work to digital systems
- Collaborating directly with lead pharmacists to gather requirements from user feedback to iterate on features
- Delivered a payroll automation platform saving 10+ hours of tedious administrative work per month
- Redesigned company website to improve user experience and modernize the pharmacy's digital presence

PROJECTS

StackHacks Phishing Detection Tool | *LLM, Javascript, Chrome Extension API, Flask*

Oct. 2025 – Present

- Managed development of an anti-phishing Chrome extension designed for campus-wide student email protection
- Architected an LLM-powered system to analyze email content and calculate phishing risk scores for students
- Drove the project from ideation through technical design and planning for deployment to the university

Cisco Webex AI Case Competition | *Product Strategy, AI, Financial Modeling*

Feb. 2026 - Mar. 2026

- Won 1st place out of 30+ teams in a Cisco-sponsored competition to reimagine the Webex enterprise platform
- Designed three AI-driven product recommendations: AI Briefing, Collaboration Graph, and Embedded Workflows
- Backed each recommendation with market research, technical architecture, and financial modeling
- Presented to a panel of 4 Cisco judges across IT, product design, and enterprise strategy during finals

Pharmacy Payroll Management | *Node.js, React.js, Firebase, Vercel*

Nov. 2025 – Jan. 2026

- Architected a scalable full-stack application with Firebase Firestore for real-time data synchronization
- Implemented JWT-based authentication with role-based access control for admin and employee permissions
- Designed an automated payroll calculation engine processing bi-weekly timesheets with overtime logic

Northeast Big Data Transportation Project | *Python, Pandas, Matplotlib, Seaborn*

Jan. 2025 – Feb. 2025

- Developed severity heatmaps, bar charts, and line graphs using Python, Pandas, Matplotlib and Seaborn
- Analyzed a 2.2 million-row NYC OpenData dataset, developing severity heatmaps to investigate traffic safety
- Presented a research statement focusing on speed cameras and their ineffectiveness in reducing collisions

LEADERSHIP EXPERIENCE

Codepath

May 2025 – Present

Peer Mentor

Remote

- Supported 7 CodePath students through regular check-ins, coursework guidance, and identifying support needs
- Promoted a positive learning environment by tracking progress and connecting peers to resources

Binghamton Stackhacks

March 2025 – Present

Intern, Chief Marketing Officer

Binghamton, NY

- Drove a 25% increase in student engagement by designing and marketing high-impact visual graphics
- Leading marketing strategy for Hack Madness with 50+ participants and \$300+ in sponsorships
- Orchestrated student coding team projects from brainstorming to successful completion

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript/TypeScript, HTML, CSS, R, SQL, Rust

Frameworks/Technologies: Next.js, React.js, Node.js, React Native, TailwindCSS, Flask, REST API

Tools: Git, Docker, Linux, Vercel, Splunk, Wireshark, Firebase, MongoDB, Excel, Powerpoint, Salesforce, Lucidchart

Libraries/AI: PyTorch, TensorFlow, Scikit-Learn, Pandas, NumPy, Jupyter, Streamlit, LaTeX
